  Masai

  completed in 2022

- **BCA**

  indra gandhi national open university

  July/2021-present

- **12th**

  Valley Of Flowers

  Completed in 2021

About Me

Currently, I am a student at Masai School learning Full Stack Web Development. Since childhood, I have always been excited to work on computers. After passing my intermediate examination, I decided to take up software development. During the pandemic, I decided to learn a few coding languages on my own. That is how I figured out my passion for this field, after which I joined Masai School and that is when I began my journey toward becoming a Full Stack Web Developer. I am highly skilled in HTML, CSS, JavaScript, ReactJS, Redux, and NodeJS. I want to work in a dynamic organization that helps enhance my technical skills and knowledge. As a beginner, I am looking to start my career with an entry-level web-developer position with a reputed firm driven by technology.

Project

KFC Website Clone

A web application to order food from KFC.
Features:

- Social Sign-in/Sign-up
- Categories-based menu
- Add to cart

Tech Stack : HTML | CSS | Javascript
